EDUCATION

Class X

Fatherson Sen. Sec. Public School, Bijnor UP

02/2019- 03/2020,

75.66%

Class XII

Fatherson Sen. Sec. Public School , Bijnor UP

02/2021 - 03/2022,

88.8%

B.Tech(CSE)

VIT Bhopal University

06/2023 - 05/2027,

8.94GPA

PERSONAL PROJECTS

Vithyarthi 2.0 - A Full Stack Learning Management System (LMS)

- JWT-secured REST APIs, Mongoose data modeling, role-based dashboards, course management, progress tracking, cloud media uploads, client-side pagination.
- Integrated file/media uploads to cloud storage (Cloudinary). Developed a responsive React UI with protected routes, instructor and student dashboards

Voice-Controlled Python Assistant (10/2024 - 01/2025)

- Designed and implemented a voice assistant using Python libraries (SpeechRecognition, pyttsx3, webbrowser).
- Developed functionality to capture voice commands, convert speech to text, and automatically search for and open the most relevant YouTube video.
- Achieved seamless integration of speech recognition and web automation for hands-free interaction.

VITERA Website(College Club).

- Contributed to VitEra Club website promoting social responsibility initiatives.
- implemented responsive React UI with reusable components and React Router.
- Built secure REST APIs with Node.js/Express, designed MongoDB/Mongoose schemas for events, members, posts.
- Set up environment-based configs, Git-based workflow, and basic CI/CD for build/test/deploy.

(Ongoing) PERN AI SaaS project.

- Building a fully functional AI SaaS (PERN) with subscription billing, user auth , and PostgreSQL , delivering multiple content/image AI tools.
- Delivered AI features: article/blog title generators, prompt-to-image, background/object remover, and resume analyzer with secure storage and rate limits.

Technical SKILLS

Frontend: Proficient in HTML5, CSS3 , Java Script, React JS , Bootstrap, Tailwind CSS and NEXT JS.

Backend: Experienced with Node JS , Express JS , REST API and JWT .

Databases : Skilled in SQL , PostgreSQL and MongoDB.

Development Tools : Used to with Github , Postman, npm , Vercel , VS Code , AWS , Cloudinary , Figma and Canva.

Used to with C++ , Java and python .

ACHIEVEMENTS

Leetcode : rating **1357** and solved **200+** questions.

GeeksforGeeks : solved **150+** questions , **1625** VIT Bhopal campus rank .

Coding Ninjas : solved **160+** questions , **Grand Master** League and **25+** badges since 2024.

Hackathons : finalist in **Smart India Hackathon(SIH) 2024** – top ranked solution in internal rounds from 500+ university teams .

Top **100** in **Pragati AI for Impact Hackathon** organized by Meta .

DSA Practice: solved **500+** problems across LeetCode , GFG and Coding Ninjas.

CERTIFICATES

Full Stack Development(Udemy)

Grade : **100%**

Experience

Working as a **Core Member(Tech)** in VitEra Club Since 2024.
